

UNIVERSAL GREEN MINERAL GEAR

Universal Green Mineral Gear lubricant is a straight mineral gear lubricant. It is formulated with paraffinic base stocks, which have been de-waxed, producing low pour and channel points. This product does not contain EP additives and has low ash values, good anti-foam properties and good oxidation resistance.

Universal Green Mineral Gear Oil is recommended for steering gears, universal-joints, industrial enclosed gears and reduction gears where a straight mineral oil is applicable. This product is recommended for automotive transmissions and differentials where EP characteristics are not required and where API service designation GL-1 gear oil are specified by the equipment manufacturer.
